prescribed for the protection of scal life in the waters mentioned. An understanding has also been reached for the payment by the United States of \$425,000 in full satisfaction of all claims which may be made by Great Britain for damages growing out of the controversy as to fur scals in Behring sea, or the scizure of British vessels engaged in taking scals in those waters. The award and findings of the Paristribound to a great extent determined the facts and principles upon which these claims should be adjusted, and they have been subjected by both governments to a thorough examination upon the principles as well as the facts which they involve. I am convinced that a settlement upon the terms mentioned would be an equitable and advantageous one and I recommend that provision ons one and I recommend that provision inde for the prompt payment of the stated. Thus far only France and Fortugal have fixed their willingness to a there to the dations established under the award of the

HAWAILAN RECOGNITION

Since communicating the voluminous correspondence in regard to flawait and the action taken by the semate and house of representatives on certain questions submitted to the judgment and wider discretion of congress the organization of a government in place of the provincial arrangement which followed the deposition of the queen has been announced with evidence of its effective operation. The recognition usual on such cases has been accorded the new government.

PROGRESSIVE JAPAN.

Apart from the war in which the island empire is engaged, Japan attracts increased attention in this country by her evident desire to cuitivate more liberal intercourse with us, and to seek our kindly aid in furtherance of her laudable desire for complete autonomy in her domestic affairs and full equality in the family of nations. The Japanese empire of today is no longer the Japan of the past, and our relations with this progressive nation should not be less broad and liberal than these with other powers.

claiming that the exaction of such duty is in contravention of articles five and nine of the treaty of 1872 with Prussia. In the interests of the commerce of both countries and to avoid even the accusation of treaty violation. I recommend the repeal of so much of the statute as hipposes that duty, and I invite attention to the accompanying report of the sceretary of state containing a discussion of the questions raised by the German protests.

It is evident that the evil consequences of illactivised allotment are intensitied in cases
where the fielse step can not be retraced on account of the purchase by the government of
reservation lands remaining after allotments
are made, and the disposition of such remaining lands to settlers or purchasers from the
government. I am convinced that the proper
solution of the Indian problem and the success
of every step taken in that direction depends,
to a very large extent, upon the intelligence
and honesty of the reservation agents and the
interest they have in their work.
